BOYCOTT THE WORLD CUP BOYCOTT THE U.S.

Beginning in April 2025, the Black Alliance for Peace North-South Project for People(s)-Centered Human Rights spearheaded the formation of the Anti-Fascist Football Coalition that developed a call for coordinated action against the U.S. fascist state as a host for the 2026 World Cup. The resulting Campaign links the war on oppressed and colonized people in the U.S. and the multiple wars the U.S. is waging abroad and heightens contradictions around People(s)-Centered Human Rights and the U.S./Israel's participation in international sporting events.

Leading up to and during the 2026 World Cup, actions were held in all 11 U.S. host cities, Toronto, Vancouver, and Mexico City through the Anti-Fascist Football Coalition, comprised of 35 organizations, internationally. The Campaign review that follows highlights the Campaign's trajectory, focused on building mass resistance against the U.S. as a host for the Games and strengthening a united front against US lawlessness and escalating violence.

FIFA AND IOC MUST BAN THE UNITED STATES AND ISRAEL FROM HOSTING OR PARTICIPATING IN INTERNATIONAL SPORTING EVENTS

June 30, 2025

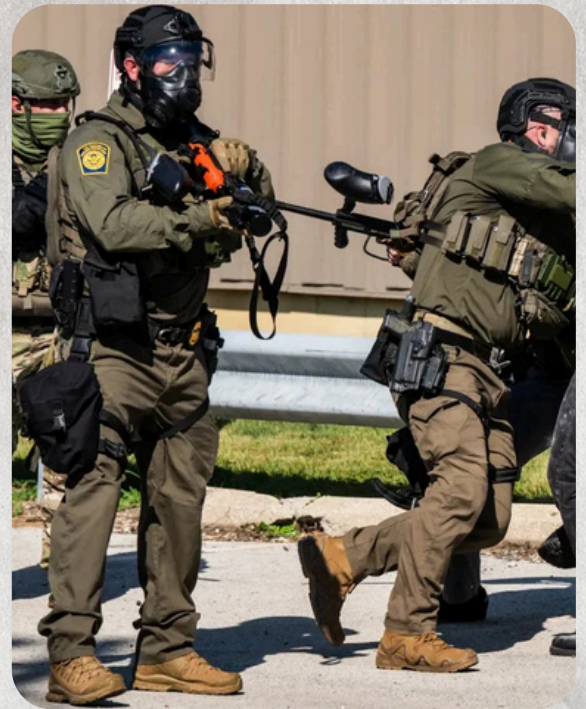

Fédération Internationale de Football Association (FIFA) and the International Olympic Committee (IOC) Must Demonstrate a Commitment to Universal Human Rights by Banning the United States and Israel from Hosting or Participating in International Sporting Events

The United States has become dangerous for members of the global community, and specifically for non-white/non-European people. The world is witnessing massive violations of human rights and the Constitution of the United States as masked agents using unmarked vehicles raid work places, homes, and places of public assembly to incarcerate and disappear Black, Brown, and Indigenous people and, in too many cases, denying them legal representation and basic information as to their whereabouts and wellbeing to their families and attorneys.

Under the current U.S administration anyone suspected of residing in and/or visiting the United States with or without "proper" documentation, including U.S. citizens, are being harassed, questioned about their political beliefs and even detained without due process. This repressive environment has created a sense of insecurity and anxiety for travelers to the U.S. including students, and even some diplomats of "foreign nations." Even individuals while in transit to other countries have been subjected to harassment and intimidation.

But this is just part of the story.

The State of Israel, with direct assistance from the United States, is committing gross and profound violations of human rights and international law through military adventures, and carrying out an ongoing genocide in addition to other war crimes including, but not limited to collective punishment and starvation. This is on top of Israel's eight decade pogrom of apartheid against the Palestinian people, as well as a perpetual disregard for the sovereignty and self determination of the Lebanese, Yemeni, Syrian, and Iranian people and their respective governments and bodies of leadership. The global community, everyday, witnesses Israel's wanton slaughter of people and pillage of lives with the full endorsement of the United States which continues to fund, arm, and promote Israel's tactics of terror and barbarity.

Both FIFA and the IOC have previously denied the hosting of, and participation in international events for nations and governments who have acted in ways they deem antithetical to their stated core values of human rights, anti-discrimination and global sustainability. For instance, both IOC and FIFA banned Germany and Japan from international competition following the second world war. Additionally, IOC banned the Republic of South Africa from participating in the Olympic Games from 1964 to 1992 due to the nation's racist system of apartheid, and FIFA banned the nation from participating in its matches between 1961 and 1992 for the same reason. And, more recently, the IOC has instituted a standing ban on the Russian Federation from participating in its summer and winter games due to what is deemed an illegal invasion and occupation of Ukraine.

This raises the question as to why FIFA and IOC are affording the United States and the State of Israel with preferential treatment over other nations who have been and are currently sanctioned and banned from competition and the hosting of international sporting events for violations of the core values of both bodies.

Therefore, we, the undersigned, as members of the global community and people/institutions of conscience demand that FIFA and IOC withdraw the United States and the State of Israel from hosting or participating in international competition events until such time that both nations demonstrate a willingness to adhere to each agency's core values and further operate in ways that adhere to international law and human rights.

OPPOSE THE NORMALIZATION OF GENOCIDE AND INTERNATIONAL GANGSTERISM!

January 13, 2026

January 13, 2026 - U.S. officials have chosen to operate outside the bounds of law and basic morality – from supporting Israel's genocide in Gaza and illegal settlement expansion, to launching a direct military strike on Venezuela that kidnapped President Nicolás Maduro and his wife, to escalating repression against migrants and racialized communities inside the U.S. itself that has even led to murder. These are not isolated policies, but interconnected expressions of an empire that uses illegal violence abroad and, in the U.S., to enforce dominance. BAP's North-South Project for People(s)-Centered Human Rights believes that this disqualifies the U.S. from hosting the World Cup in 2026 and the Olympics in 2028.

Inside the U.S., state violence is increasingly directed at Black, Brown, and Indigenous people through dehumanizing rhetoric, mass surveillance, immigration raids, and impunity for law enforcement. Between January and October 2025 alone, ICE carried out an estimated 220,000 arrests – a record surge that underscores the regime of criminalization faced by migrants. Amid these raids, a 37-year-old woman, Renée Nicole Good, was fatally shot by an ICE agent during an enforcement operation in Minneapolis, an incident that has sparked outrage and raised deep concerns about unchecked state violence.

This same logic of domination underpins U.S. actions abroad and repression at home: a system in which "might makes right." As a result, the communities most at risk from U.S. repression are also among the World Cup's most passionate fans and among the Global South nations participating in the 2026 Games.

"Allowing the U.S. to host the World Cup or any other international games would be an affront to the victims of U.S. lawlessness and its support for an ongoing genocide against the Palestinian people," according to Ajamu Baraka, director of the BAP's North-South Project. Baraka continues, "The U.S. is an unsafe and illegitimate host. FIFA's own statutes commit it to respecting internationally recognized human rights, yet allowing the U.S. to host. At the same time, it enables genocide, military aggression, racialized repression, and the mass criminalization of migrants, normalizing and legitimizing these crimes. In doing so, FIFA becomes complicit."

The World Cup should not be used to launder state violence and normalize genocide and international gangsterism. Organizations and people of conscience must demand that FIFA move the Games out of the U.S. and take a stand for people-centered human rights rather than empire, repression, and impunity.

The Project will be releasing a video worldwide on January 15th, the Birthday of Dr. Martin Luther King that makes the claim for why the games must be moved from the U.S. BAP is asking for the international public to sign the petition to FIFA to move the games and for all people of conscience to boycott the U.S. until it is ready to join the community of nations as an equal partner committed to justice and upholding international standards of decency.

CALLS MOUNT FOR FIFA WORLD CUP BOYCOTT AMID U.S. RIGHTS ABUSES

January 29, 2026

At least 15 nations scheduled to participate in the World Cup face U.S. travel bans and visa restrictions, as ICE abductions, disappearances and killings continue.

International calls to boycott the US-hosted FIFA World Cup 2026 are increasing in response to widespread U.S. human rights violations domestically and Washington's atrocities and malign activities abroad.

Former FIFA President Sepp Blatter has become the latest prominent voice to echo calls for football fans to boycott World Cup matches in the United States as the world witnesses public executions-gone-viral in Minneapolis and mass-scale repression and raids by masked agents on U.S. workplaces and homes. Blatter's remarks follow the likes of UK MPs, a leading German soccer official, and sports columnists.

Eleven of the 16 cities selected by the Federation to host the matches are in the United States (Atlanta, Boston, Dallas, Houston, Kansas City, Los Angeles, Miami, New Jersey, Philadelphia, San Francisco and Seattle), in a tournament that is being promoted as jointly hosted with Canada and Mexico. The U.S. will host 78 matches, while Canada and Mexico each prepare to host just 13 matches, beginning June 11.

Sport Scholars for Justice in Palestine will be hosting a town hall to hear from movement organizations and activists regarding the boycott, alongside Scottish Sport for Palestine, NOlympics LA, No Team Israel at the Davis Cup, Irish Sport for Palestine, and Black Alliance for Peace.

The North-South Project for People(s)-Centered Human Rights published a video urging organizations and people of conscience to demand that FIFA move the matches out of the United States. The North-South Project, part of The Black Alliance for Peace (BAP), has also circulated a petition calling on both FIFA and the IOC to ban the United States and Israel from hosting or participating in international sporting events.

In doing so, FIFA becomes complicit."

U.S. non-profit CodePink is also demanding that FIFA move the games, citing the U.S. bombings of Nigeria and Venezuela.

Football journalist Nima Tavallaey Roodsari was among the early voices to argue that U.S. travel bans imposed during Trump's first term—disproportionately targeting citizens of Muslim-majority and African countries—should automatically disqualify the U.S. from hosting. He's joined by a growing number of sports journalists, sports content creators and podcasters sounding the alarm over travel to the U.S.

Various forms of visa processing have been frozen for at least 15 of the World Cup qualified nations—nearly a third of participating teams. Citizens of Iran are subject to a blanket suspension of visas, with no guarantees for travel to the U.S. for Iranian players, coaches and staff, let alone fans. Haiti, whose national team qualified for the World Cup from Concacaf, is also among the 12 countries whose citizens face a full U.S. travel ban.

FIFA, under the leadership of President Gianni Infantino, invented a FIFA Peace Prize for the purpose of bestowing the award to Donald Trump, as U.S. massacres and extrajudicial killings in the Caribbean and Pacific hit the three month mark. The award drew criticism of sports broadcasters and pundits.

Infantino made multiple visits to the White House in 2025 to meet with Trump, beginning with Trump's welcoming of Infantino to his Mar-a-Lago residence in Florida as part of a series of pre-inaugural events. The Trump-Infantino relationship spans years, with the U.S. president inviting the FIFA president to give an opening speech at a Trump-hosted dinner at the World Economic Forum in Davos in 2020.

Israeli firm International Security & Defense Systems (ISDS) has provided services to at least four World Cups; Mexico (1986), Italy (1990), South Africa (2010) and Russia (2018). NoOlympics LA explains How The Olympics and World Cup Help Fuel Israeli War Crimes in Palestine with event security schemes run by former Israeli Occupation Forces (IOF) soldiers and Mossad agents.

While the U.S. utilizes Mossad and IOF for domestic event security, the Department of Homeland Security has confirmed its overseas deployment of U.S. Immigration and Customs Enforcement (ICE) during the 2026 Winter Olympic Games in Italy.

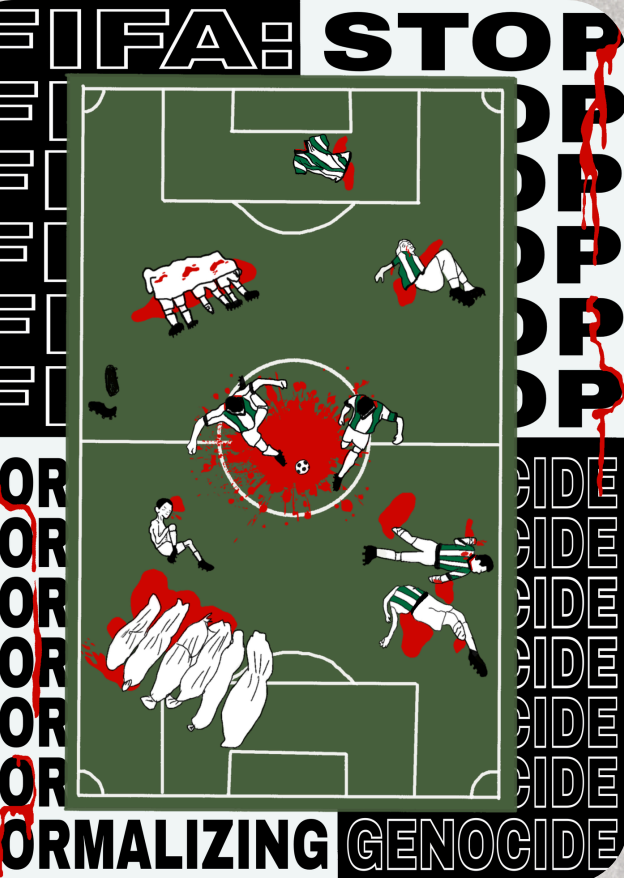

European objection to the U.S. hosted tournament is becoming louder each day. In The Netherlands, a petition to boycott, launched by Dutch broadcaster Teun van de Keuken, has amassed 156,000 signatures. The petition calls on the Dutch government to not allow the Dutch national football team to participate in the World Cup in the United States: "We do not want our footballers to implicitly support President Donald Trump's violent terror policy against innocent migrants.."

Calls to boycott the 2026 FIFA World Cup have also come from tournament co-host, Mexico, where protests against U.S. meddling are being organized. Organizations and activists are urging a boycott of U.S. chains that finance wars. An op-ed in one of Mexico's leading newspapers calls FIFA, "a cubil of millionaire thieves", which ought to be outright banned as a sports authority.

Global backlash over ticket prices forced FIFA to created a limited "Supporter Entry Tier" price category in December. Even still, this year's World Cup will be the most expensive, and least accessible to football fans, in history.

PROTESTS ARE EXPECTED IN THE 11 U.S. HOST CITIES.

100 DAYS FROM THE WORLD CUP, AN INTERNATIONAL COALITION IS CALLING ON FIFA TO MOVE THE GAMES FROM THE U.S.

March 4, 2026

The US has disqualified itself from hosting the World Cup through wars, genocide, and domestic repression.

March 3, 2026, With the FIFA World Cup 2026 now 100 days away, an international coalition has launched a coordinated boycott campaign demanding that FIFA move matches from the United States. The Coalition warns that US thuggery is creating a humanitarian crisis, both domestic and international. International sport is not neutral. Mega-sporting events function as instruments of political legitimization. To host global sporting events is not merely a logistical privilege — it is a declaration of belonging within the international community.

"The coalition believes that with the siege of Cuba, the kidnapping of the president of Venezuela, unprovoked and illegal war on Iran, and the fact that the United States has become an increasingly unsafe and hostile environment for peoples of the world — particularly for Black, Brown, Indigenous, migrant, and non-European peoples — the U.S. has excluded itself from the community of civilized nations and should not be allowed to normalize its violence and international gangsterism," says Ajamu Baraka of the Black Alliance for Peace's North-South Project for People(s)centered human rights, one of the conveners of the coalition

In the US, violent immigration crackdowns, illegal detentions, and discriminatory travel measures endanger communities, fans, players and tournament personnel all while the US soaks its hands in foreign blood across the globe.

Nowhere is this more evident than in West Asia and Africa. There, the US continues its violent campaigns against nations whose players and fans will soon set foot on American soil for 78 world cup matches beginning June 11th. Many will arrive as victims of US-sponsored carnage. We demand: the games cannot go forward as if these lives do not matter—whether it is in graves or cages. We refuse to let the United States hide its transgressions against sovereign peoples. The blood of women and children will not be washed away on the pitch to fertilize its grass, and its seats must remain empty for every person ICE has disappeared.

Mireille Fanon Mendes - France, chair of the Frantz Fanon Foundation declares that "it is morally obscene and politically backward that the United States, a country that has persistently defied international law and stands implicated in grave human rights violations—including wars of aggression, war crimes, crimes against humanity, and active support for Israel's genocide in Gaza—should be entrusted with hosting a global event meant to celebrate dignity, collective humanity and unity like the World Cup."

At this historical juncture, permitting the United States to host international sporting events such as the 2026 World Cup and 2028 Olympics with the participation of Israel, represents a profound moral and political contradiction for the international community of nations.

As we face 100 days before the World Cup, we say reject the normalization of war, repression and genocide. Demand that FIFA move the games and boycott the U.S. until it has demonstrated that it is prepared to operate in the world as a normal state committed to equality, peace and people(s)-centered human rights.

U.S. GLOBAL LAWLESSNESS AND SECURITY CONCERNS FOR NON-WHITE NATIONS AND THEIR FANS INTENSIFY CONCERNS THAT THE U.S. IS NOT APPROPRIATE VENUE TO HOST WORLD CUP

April 7, 2026

On April 6th, the Anti Fascist Football Coalition, a group of grassroots organizations in the three World Cup host countries - the U.S., Mexico, and Canada - delivered a petition to FIFA (signed by prominent individuals and organizations from every part of the planet) asking that FIFA and the International Olympic Committee demonstrate their stated positions on universal human rights and, as such, ban the United States and Israel from hosting or participating in international sporting events.

The Coalition is collaborating to implement shared strategies to demand that FIFA immediately remove the 2026 World Cup matches from the United States, and also calls on the international community to boycott the U.S. as a host nation for international sporting events.

Prior actions by the Coalition, including additional communications to FIFA, highlight the hypocrisy of their so-called "human rights statutes" when, historically, qualifying countries have been banned from participation in the Games for far less, such as the disqualification of Mexico in 1994 for incorrect paperwork. And yet, FIFA continues its shameless complicity with the U.S. agenda of global domination, no matter the cost of human and environmental life.

Brianna Alvarado Ramos, representing Diaspora Pa'lante Collective in the Anti Fascist Football Coalition, states that "The disqualification of the U.S. as both a host and participant is the bare minimum when we look at the U.S. warpath of barbaric and lawless acts of violence, repression, and genocide domestically and abroad - from the escalating economic strangulation of Cuba, the attacks on Venezuela and the kidnapping of its President, the ongoing U.S. occupation of Haiti, its brutal war on Iran, the subjugation and genocide of Palestinians, as well as the murder of working class people in the U.S. through both physical militarized forces and economic warfare."

The past weeks have seen a clear build in momentum, internationally, with the demands to move the 2026 World Cup Games from the U.S. and hold FIFA accountable for its unwavering complicity in U.S. repression, lawlessness, escalating violence, and normalization of genocide. Dutch groups have collected nearly 200,000 signatories supporting their call to "Boycott the Trump World Cup."

Germany's Fairness United is circulating their campaign and petition to "Love Football/Hate Fascism" with serious considerations to boycott matches held in the U.S. After the Trump administration openly disparaged Spain for its opposition to the US-Israeli war on Iran, the Spanish government announced on March 3 that its national team's withdrawal from World Cup participation is under consideration.

These actions echo the calls from several other countries, including Sweden, France, Switzerland, and, of course, Iran, where the Trump administration openly threatened the safety of their players should they choose to travel to and compete in the U.S.

The evidence as to why the World Cup Games must not be held in the U.S. continues to grow and there is nothing covert about the agenda of the U.S. state to use these mega events as direct pathways for militarized entities to further disappear and neutralize colonized and oppressed populations - not just those living in the U.S., but also for international fans and players hoping to attend the matches. Just recently in Dallas, Texas, Iraqi football fans were physically and verbally harassed with threats to call ICE. In response, a countless number of fans reiterated that the U.S. is dangerous for anyone attending the Games.

BLACK ALLIANCE FOR PEACE NEW YORK CITY/NEW JERSEY ENDORSES THE ANTI-FASCIST FOOTBALL COALITION'S CAMPAIGN TO MOVE THE WORLD CUP FROM THE U.S.

April 23, 2026

April 23, 2026 — The FIFA World Cup 2026 is scheduled to begin in the United States, Canada and Mexico on June 11, 2026. The Black Alliance for Peace New York City/New Jersey Citywide Alliance (BAP NYC NJ) is announcing its participation in the Anti-Fascist Football Coalition that has launched a coordinated campaign demanding that FIFA move these matches away from the United States.

In 2026 alone, the U.S. kidnapped the president of Venezuela, waged a war of aggression against Iran, continued its genocide and war crimes against Palestinians in Gaza, and, in an effort to implement regime change, created a humanitarian crisis in Cuba. In addition to these violations of international law, a mass deportation campaign has imprisoned thousands of people held in inhumane conditions, and athletes from countries such as Iran, which have qualified for the World Cup, have no assurance of safety while in the U.S.

FIFA's granting of World Cup hosting privileges lends an air of respectability to the winning nation and implies its compliance with international laws and norms of ethical behavior. The U.S. should not be granted even a symbolic seal of international approval when it is actively instigating what could become a world war and subjecting thousands of people to surveillance and incarceration, and even killing its own citizens, as ICE agents did during the Minnesota protests. ICE will bring that ability to use force to World Cup matches, making them unsafe for the participating athletes, spectators, and the community at large. MetLife Stadium, renamed the New York-New Jersey stadium for the World Cup, will host eight matches, including the final on July 19.

"FIFA is asking the world to celebrate in the shadow of the Delaney Hall immigration detention center," said BAP Northeast Co-coordinator, JP Sloan. "The games are set to be hosted just a short 16-minute car ride away from Delaney Hall, the very location where a Haitian detainee, Jean Wilson Brutus, died while in ICE custody, and who still has not received justice. This is not a coincidence we are willing to ignore."

While FIFA placates the U.S. by making President Trump the first winner of the FIFA Peace Prize, the U.S. continues to kill workers and fishermen in the Caribbean and Pacific Ocean regions bordering South America in order to manufacture a pretext for the illegal war against the nation of Venezuela. FIFA has made itself a partner in the active aggression against the Palestinian people by participating in the sham Board of Peace, which covers for the U.S./Israeli occupation of Gaza.

FIFA allows the U.S. to present itself as a country that respects civilized norms when, in fact, it violates them. Adding insult to injury, FIFA has pledged \$50 million for a new stadium in Gaza, completely sidestepping the fact that Israeli military operations are the source of the crumbling football infrastructure and that over 800 athletes have been murdered since the start of the Gaza genocide.

Ewan, a BAP NYC NJ co-coordinator, pointed out the hypocrisy and the damage to FIFA and to the sport followed by millions of people throughout the world. "How does FIFA gain the authority to award a Peace Prize to the U.S. President while U.S. forces kill unarmed fishermen and workers in the Caribbean? It is not lost on any of us that this organization has gone out of its way to be an active participant in this malevolent whitewashing of war criminals."

The United States is not an appropriate nation to host the World Cup or the Olympic Games in 2028. Nor should apartheid Israel be allowed to participate in these or any other international sporting events. It should be banned from these competitions, just as apartheid South Africa was banned.

As the World Cup begins in 51 days, the BAP NYC NJ Citywide Alliance strongly supports the demand to move the games. Keeping them in the U.S. would legitimize repression, genocide, human rights violations, and war crimes. FIFA must move the games and boycott the U.S. until it has demonstrated that it is prepared to act as a responsible member of the world community.

MOVE THE GAMES: NO WORLD CUP FOR GENOCIDE, ECOCIDE, OR STATE THUGGERY

April 29, 2026

This Earth Day the Anti-Fascist Football Coalition declares that the United States and its Zionist partner have disqualified themselves from the community of civilized nations — not only through genocide, domestic repression, and imperialist violence, but through the systematic ecological destruction of Africa and West Asia. The U.S. military is the single largest institutional polluter on the planet, leaving behind toxic bases, polluting equipment and munitions, and poisoned air and water across the globe. Beyond emissions and direct pollution, U.S.-led militarism enforces imperialist domination, as it dehumanizes and discards the colonized, working class, and “surplus” populations by contaminating our ecosystems and poisoning our bodies. All the while, the U.S. evades accountability to international law.

In Gaza, Israel has waged ecocide as a weapon of war: tens of millions of tons of rubble have contaminated the soil and water, farmland has been razed, and the freshwater aquifer is now undrinkable. Across Africa, from the extraction of Congolese diamonds that fund the Israeli military to the destabilization of the Horn of Africa and Somalia to the gold and mineral resources that drive a UAE-backed genocide in Sudan, U.S.-Zionist imperialists drive deforestation, poison rivers, and displace entire communities. This is deliberate environmental and global class warfare.

The U.S. has “americanized” the beautiful game, providing a platform that enables and normalizes genocide and ecocide, within the U.S. and globally. The tournament itself will generate millions of tons of carbon emissions from stadium construction and air travel, while inside the United States, the policing apparatus that terrorizes Black, Brown, and migrant communities makes the country fundamentally unsafe for fans, players, and tournament personnel. Militarized ICE agents and state thugs can now routinely stop, detain, and disappear foreign nationals under the guise of immigration enforcement as racial profiling has become the way of law. No visiting fan from Africa, West Asia, or anywhere else can be assured of safety on U.S. soil.

THEREFORE, THE ANTI-FASCIST FOOTBALL COALITION DEMANDS:

FIFA immediately relocate all 2026 World Cup matches scheduled to take place in the United States.

The international community, including teams, supporters, cultural workers, and civil society organizations, initiate a boycott of the United States as a host of international sporting events.

International sporting institutions adopt non-selective accountability standards rooted in collective human rights and anti-colonial principles.

No whitewashing of US gangsterism and neo-fascist violence. No World Cup in a nation hostile to the People(s)-Centered Human Rights of our neighbors and family across the globe. No more poisoning our Earth. No peace under imperialist gangsterism and repression.

BLACK ALLIANCE FOR PEACE CALLS ON INTERNATIONAL COMMUNITY TO BOYCOTT THE 2026 WORLD CUP GAMES SCHEDULED FOR THE UNITED STATES

June 4, 2026

May 28, 2026 — The Black Alliance for Peace's North-South Project for People(s)-Centered Human Rights (the Project) raised the issue months ago of the fundamental inappropriateness of the 2026 Fédération Internationale de Football Association (FIFA) World Cup being hosted in the United States. The Project argued that the U.S. human rights record—including blatant actions globally that constitute crimes against humanity, war crimes, and complicity in genocide, along with the systematic abuse of the human rights of migrants, immigrants, and even U.S. citizens domestically through the unleashing of the Immigration and Customs Enforcement agency (ICE)—renders the United States ineligible to host the games.

The Project called for the tournament to be moved from the United States, a call that was ignored. Now, with the games scheduled to begin in just a few weeks, the Black Alliance for Peace and its human rights project have no other choice but to call on the international community to withdraw all support for the games through an international boycott.

"It is outrageous and obscene that FIFA would allow the United States—a nation operating completely outside the bounds of international law and established international morality—to host the World Cup while providing material and political support for an ongoing genocide; constructing a regime of domestic terror through ICE goons who beat, murder, and disappear people into the vast detention gulags of the United States; invading and capturing a sitting president; attacking Iran; and imposing a humanitarian crisis on Cuba through criminal siege tactics perfected by Israel in Gaza," stated Ajamu Baraka, Director of the North-South Project for People(s)-Centered Human Rights.

BAP is clear: as long as the United States continues its brutal assaults on the humanity and sovereignty of peoples and nations throughout the world in pursuit of full-spectrum domination, it remains an illegitimate and dangerous host for the World Cup.

But even more importantly, we believe it is a moral necessity to reject any attempt to use the World Cup as an instrument for normalizing international lawlessness, marginalizing accountability, and desecrating the memory of the tens of thousands of victims of U.S. criminality around the world.

BAP National Coordinator Erica Caines understands that this is a controversial position that may not be understood, even by people who recognize and oppose U.S. domestic and foreign policies. "We understand the excitement and pride of the nations that qualified and will compete in the World Cup. However, participation in the games while they are hosted in the United States does not uphold the Beautiful Game as it was meant to be celebrated. Instead, it risks normalizing genocide, domestic repression, militarism, and death."

That is precisely why the Black Alliance for Peace stands firm in the insistence that this year's World Cup—and the United States itself—must be boycotted. Conscience and political consistency demand nothing less.

The U.S. agenda for domination is clear, and therefore our response must also be clear. We will not bend to U.S. imperialism or to any of its subordinate international institutions, including FIFA. Our resistance is politically grounded and informs our focused commitment to boycott the World Cup, boycott the United States, and advance the collective struggle for People(s)-Centered Human Rights.

BAP calls on the international community to join us in the fight for authentic human rights grounded in the principles of self-determination, social justice, democracy, and radical social transformation.

BOYCOTT THE WORLD CUP BOYCOTT THE U.S. END THE U.S. OCCUPATION OF HAITI!

FIFA, as an enabler of the U.S. settler state, is reaffirming its genocidal occupation of Haiti through World Cup policies and enforcement.

17 nations in the Global South, including Haiti, that have qualified to compete, face severe travel bans and visa restrictions, highlighting FIFA as a white supremacist legitimizing agency for U.S. lawlessness and ongoing violence. These realities exist in addition to propping up the U.S. as a 2026 host despite their blatant violations of FIFA's "human rights" statutes through ongoing acts of violence in Haiti and throughout the Caribbean, in its quest for domination and accumulation, regardless of the human or environmental cost.

Supporting popular sovereignty and the people(s)-centered movements in Haiti must continue to be a core tenet of the struggle for a Zone of Peace in Our Americas.

THE ANTI FASCIST FOOTBALL COALITION UNANIMOUSLY JOINS THE CALL FOR A BOYCOTT OF THE WORLD CUP

June 4, 2026

On May 28th, the Black Alliance for Peace and its North-South Project for People(s)-Centered Human Rights called on the international community to withdraw all support for the World Cup Games through an international boycott. The call lays out the stark illegitimacy of the U.S. as a World Cup host. A country that is brutally attacking the humanity and sovereignty of nations throughout the world in their ongoing quest for full spectrum domination - in its violent attacks on Cuba and Iran, while holding captive the President of Venezuela and violently pressing its Zionist project for colonial expansion in Gaza - remains, with ample evidence, an illegitimate and dangerous host for the World Cup Games.

The Anti-Fascist Football Coalition, the international body of 32 organizations strategically coordinating to Boycott the World Cup and Boycott the U.S., has expressed unanimous support of this position and has chosen to echo this call as the Campaign advances. "This is a historic, strategic decision which lays the foundations for deeper long-term implications that transcend U.S. borders," said Coalition member Camilo Pérez-Bustillo of the International Tribunal of Conscience of Peoples in Movement, based in Mexico City.

Coalition member Maraky, of the Black Alliance for Just Immigration, added, "By hosting the games in the U.S., FIFA is celebrating the U.S. as the greatest violators of human rights on the planet and further normalizing U.S. acts of genocide, war, and intensified repression. Nuance, balance, and moderation are not an option when they align, whether consciously or not, with Western and U.S. imperialism."

In addition to the massive violations of the U.S. on human rights globally, Coalition organizations are feeling the material impacts of host city preparations as heightened tactics of surveillance, mass repression, and captivity are put into place, amplified by the Supreme Court's green light for the state's militarized agents to use racial profiling as a basis to enforce violence.

The Anti-Fascist Football Coalition calls on organizations and individuals to join us in this call to Boycott the World Cup and Boycott the U.S., standing firmly against FIFA's complicity of U.S. violations of human rights.

Tensions are rising as the ruling class plans to celebrate 250 years of white supremacist genocidal violence tomorrow, July 4th, touting the U.S. as "land of the free." These tensions are heightened as **our material reality tells the true story about who is and is not "free."**

Free of **repressive surveillance**? Only for the colonizer.

Free of **forced migration, poverty, and displacement**?

Free of **criminalization and mass incarceration**?

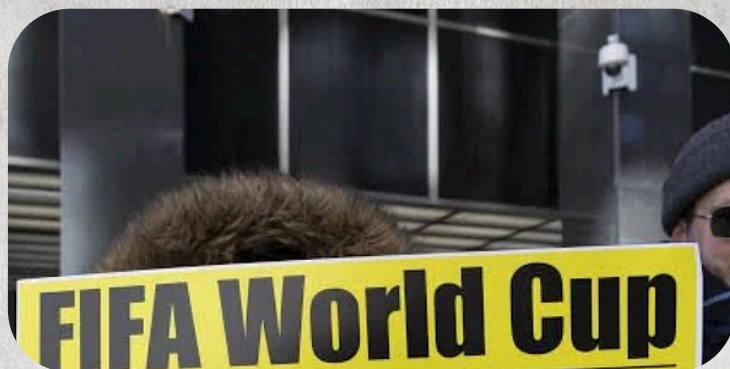

Free of **militarized violence**?

Free of **food deserts and poisoned water**?

Free from **deportations and kidnappings**?

Free from tactics of **dehumanization**?

Only for the colonizer.

BOYCOTT FIFA ABOLISH ICE

STOP THE US-ISRAEL WAR MACHINE

Specifically, within the past few weeks of World Cup matches, the U.S. continues to add to its track record of repression of freedom for the colonized and oppressed, this time with proud support from the international white supremacist structure, FIFA. From visa bans and travel restrictions for Teams and players in the Global South to increased surges of migrant kidnappings by militarized entities, the U.S. fascist state is attempting to distract the masses with a white supremacist hijacking of the beautiful game to create a shiny whitewashed spectacle of corporate profiteering.

Our **coordinated and sustained resistance to the state's unjust, violent, and manipulated version of "freedom" shifts power to the masses** of working class and colonized people, where structures rooted in People(s)-Centered Human Rights drive the process of decolonization to become the foundation of a **people(s)-centered freedom, expressed through self-determination and the highest forms of human dignity.**

We will wield our collective power as we **#BoycottTheWorldCup** and **#BoycottTheUS.**

10 MILES OF CONTRADICTION: WHERE THE BEAUTIFUL GAME MEETS THE CAGE.

June 9, 2026

Preparations for the start of the World Cup on June 13th have begun, but while the ruling class prepares their party, the people will be on the streets. The day before the games, on June 12th, we gather at Delaney Hall to honor 50 people who tore down walls and fought for freedom. The Imperialists celebrate their war on Peoples- Centered Human Rights just a few miles away from those they crush. Delaney Hall is run by GEO Group, a private prison giant that profits from detaining the very people the World Cup claims to honor. Many of those inside come from the same countries, sending their teams to play. ICE agents will be at the stadium entrances, drones in the sky, while the carceral state uses the tournament to whitewash its violence as they brutalize those who seek liberation.

BAP and the AFFC call for a boycott of the World Cup; the U.S. has disqualified itself from the community of civilized nations. You cannot cage people from across the globe and then throw a party on the same ground. You cannot replace a hunger strike with a soccer match. Join us on June 12th at 8 pm at Delaney Hall (451 Doremus Ave, Newark). Stand with the uprising and the hunger strike still happening inside. Then, on June 13th, boycott the spectacle.

WORLD CUP 2026: FIFA AND THE U.S.'S WHITE SUPREMACIST COLONIAL PARTNERSHIP IS ALREADY ON FULL DISPLAY

June 12, 2026

The World Cup has begun, and we are witnesses to the contradictions of the full, bloody arc of 250 years of U.S. history, manifesting through the state's partnership with the Fédération Internationale de Football Association, FIFA. In just the last few days leading up to kickoff, we have seen an award-winning Somali referee barred from the opportunity to officiate, Senegalese and Uzbekistani players harassed and searched by state forces, the Haitian team forced to change their jersey and denied the ability to wear a celebration of their national independence, an Ecuadorian fan brutalized by police, dozens of members of the Moroccan and Iranian delegations denied entry. Meanwhile, Iranian players are treated not as competitors but as enemies to be monitored, disciplined, and made examples of in the service of imperialist war, and incarcerated freedom fighters hunger strike for justice at Delaney Hall. The World Cup exposes the racial geography of imperialism: some bodies move freely, while others are subjected to suspicion, exclusion, humiliation, and violence.

In its acceptance of and complicity in these acts, FIFA has reminded the world that it serves as just another colonial instrument of the global white supremacist, imperialist structure headed by the United States and the capitalist elite. The decision not to pull the games from the U.S. - while that country engages in a war of aggression against Iran, funds and aides genocides and domestic repression against non-European peoples, supports the terror unleashed in the West Bank and Gaza, and tightens its inhumane collective punishment and strangulation of Cuba - shows FIFA's true nature, and that despite its sordid past, it has found new depths to sink to in its abdication of morality and humanity. The bloody stain upon these 2026 World Cup Games will never be clean.

We condemn FIFA as the racist colonial entity that it is. In response, we continue to call for the international community, the peoples and nations of the world, to Boycott the World Cup and Boycott the U.S.

Boycott is the weapon of the colonized, the sanctioned, the dispossessed, and we refuse to be spectators to our own subjugation.

WITH THE ATTACK ON IRAN, THE BLACK ALLIANCE FOR PEACE CALLS ON THE REMAINING TEAMS IN THE FIFA WORLD CUP TO WITHDRAW FROM THE TOURNAMENT

July 8, 2026

The United States' cynical decision to resume active warfare against Iran while simultaneously draping itself under the guise of a gracious global host for the FIFA World Cup exposes a foreign policy defined by rank impunity and lawlessness that must be rejected by the international community.

As the Trump administration escalates strikes against Iran, the Board of Peace actively abets the region's immolation. As the U.S./Israel coalition/alliance continues to systematically destroy Palestine through genocide and ethnic cleansing, the Trump administration supports the refusal of Israel to withdrawal from Lebanon, where they apply the same genocidal campaign as they have in Gaza. The ongoing crimes against humanity, war crimes, support for genocide and resumption of the attack on Iran means that the World Cup must not be allowed to proceed as business as usual.

The U.S. presenting itself as the world's welcoming host is morally obscene.

The World Cup games should not be allowed to go on as long as the U.S. is attacking Iran, Lebanon is being destroyed, and Palestine continues to be brutally assaulted from the West Bank to Gaza. While the affronts on the human dignity of football teams and players from Iran and other nations during this World Cup show the arrogance and colonial mindset of the U.S., we must focus our attention on the primary issue of U.S. war, imperialist domination, and genocide. We must Boycott the World Cup and Boycott the U.S.!

GIVE U.S. FASCISM AND WAR A RED CARD: REFUSE ACCEPTANCE OF WORLD CUP TROPHY FROM BLOOD-SOAKED HANDS OF U.S. EMPIRE!

July 17, 2026

The body count and war crimes of the fascist U.S. settler state mount with each passing day. On the first day of Operation Epic Fury launched against Iran, 168 Iranians, primarily children, in Minab were murdered in their classrooms by US missiles, and the slaughter of innocents by U.S. imperialist forces has continued unabated and unashamedly since.

From the lethal blockade on Cuba, the invasion of Venezuela, the renewed war on Iran, the U.S. occupation of Haiti, the forced extraction of resources in the Congo, and the ongoing genocide in Palestine, the blood of hundreds of thousands of victims of US imperialism covers the claws of the fascist U.S. regime.

Every week, the U.S. Gestapo, ICE, adds to the horrendous atrocities within the U.S.

As the World Cup entered the semifinals, ICE thugs murdered two immigrant fathers, Johan Sebastian Guerrero in Maine and Lorenzo Salgado Araujo in Houston, site of seven World Cup matches.

These crimes against humanity must have consequences, and the guilty must be brought to justice. We refuse impunity as a response to lawless U.S. war crimes and endless murders and aim to disrupt any and all normalization, complicity, and collusion with this blatantly fascist U.S. agenda for global domination.

To that end:

The Anti-Fascist Football Coalition (AFFC) urges the winner of the 2026 World Cup to refuse acceptance of the World Cup trophy from the blood-soaked hands of Trump and the U.S. state.

Do not let your historic victory be used to wash the image of the U.S. Empire.

If (and when) FIFA refuses to remove Trump from the Ceremony, AFFC urges the winners and runners-up to refuse a handshake from Trump, turn their backs on him, and not allow him to join them for the lifting of the trophy.

The Anti-Fascist Football Coalition insists that a moment of silence, a memorial tribute, be held before the final match kickoff for the 168 Iranians of Minab slaughtered by US forces and the two immigrant fathers murdered this week by ICE.

Six moments of silence have been held and broadcast so far within the tournament, to honor the Venezuelan earthquake victims, the death of South African footballer Jayden Adams, and the victims of the wildfires in southern Spain.

The U.S. and FIFA will not recognize the humanity of the 168 people that they directly murdered in Iran. We refuse their devaluation of non-white life and insist on their commemoration.

The AFFC will not be intimidated by the fearmongering tactics of U.S. repression and neutralization of those willing to stand up against fascism. Join us in the Global Network as we collectively struggle for People(s)-Centered Human Rights

250 YEARS OF SETTLER COLONIAL VIOLENCE

250 YEARS OF SETTLER COLONIAL VIOLENCE bit.ly/EndorseNow

Boycott the World Cup, Boycott the U.S.

The United States will celebrate 250 years of so-called independence.

As cities around the country prepare events to camouflage the violence, aggression, and devastation caused by the white supremacist U.S. settler colonial state, we condemn the ongoing terror aimed at oppressed communities both inside of the U.S. and around the globe.

Built on the genocide of Indigenous and African peoples

this country maintains its hegemony through violence, domination, and economic coercion. With recent acts of global lawlessness such as the funding of genocide in West Asia and Africa, the intensified oil blockade against Cuba, the removal of TPS status for Haitians and Syrians, and the murdering of over 200 fisherpeople in the Caribbean, the United States' 250 years of "independence" is a farce attempting to conceal 250 years of white supremacist settler colonial violence and human rights violations.

FIFA, a corrupt international institution with their own sham "human rights statutes," continues its history of propping up US settler colonialism through its obvious agenda to whitewash the beautiful game while absolving the US of its war crimes and crimes against global humanity.

The America 250 Celebration is no celebration at all, but instead a clear call to Boycott the U.S., Boycott the World Cup, and defeat global white supremacy and the lawlessness, violence, and imperial domination it represents.

We cannot celebrate the "independence" of a country that is still colonizing the lands and peoples of Puerto Rico, St. Croix, St. John, St. Thomas, Guam and the Mariana Islands, American Samoa, occupied Hawaii, Guantanamo Bay, the Panama Canal Zone, and every country that is occupied by the 900 U.S. military bases worldwide.

Internally, colonized communities are still oppressed at the hands of the U.S. empire. Food apartheid runs rampant, healthcare and education are designed for capitalist profit instead of human wellbeing, and ICE, the national guard, and highly militarized police departments occupy our communities.

FIFA, a corrupt international institution with their own sham "human rights statutes," continues its history of propping up US settler colonialism through its obvious agenda to whitewash the beautiful game while absolving the US of its war crimes and crimes against global humanity.

NO FASCISM IN INTERNATIONAL SPORT: KICK ISRAEL OUT OF FIFA!

September 29, 2025

The Israeli settler state's assault on Palestine in collaboration with the U.S. and its allies, is normalizing fascism on a global scale. We must fight this on all fronts, including the world's most popular stage: Football. Football is not separate from this struggle; it is a crucial battleground. Sporting events, like the 2026 FIFA World Cup, cannot be allowed to whitewash genocide. That's why we demand FIFA ban Israel and the U.S. from World Cup participation until they comply with international law.

MAKE OUR AMERICAS A ZONE OF PEACE

In 1966, FIFA banned South Africa from participating in the World Cup due to apartheid.

In 1990, FIFA banned Mexico from participating in the World Cup due to age falsification scandals.

In 2026, the U.S. evades accountability as a rogue state committing genocide and remains not only a World Cup participant but a host nation.

While the U.S. murders Venezuelan fishermen with impunity, blocks Cubans from life-saving medical care and deprives them of fuel, occupies and isolates Haiti, continues its brutal colonization of Puerto Rico, and kidnaps and kills its own racialized citizens, it enjoys immunity from the scrutiny of international organizations like FIFA. Instead of banning the U.S., FIFA has aligned itself with the same forces of militarization terrorizing Our Americas by awarding President Donald Trump a Peace prize.

Even kidnapping a sitting president will not stop FIFA's endorsement - as long as the kidnapper is the U.S.

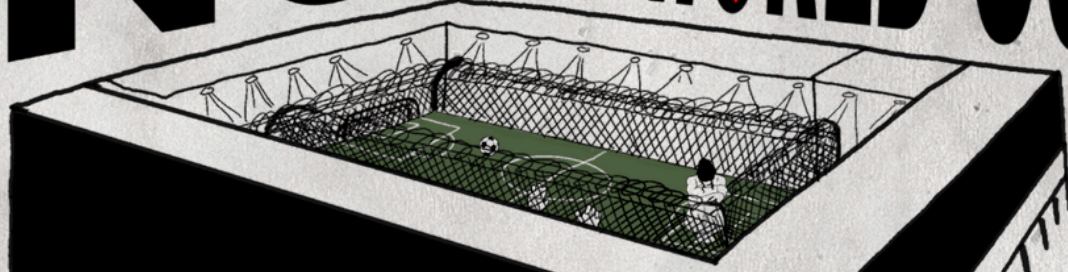

Simply locating the games to the U.S. creates danger for North and South American communities in the form of increased policing around international travel and game locations.

It is clear that the U.S. is exempt from FIFA's supposed commitment to upholding human rights. Instead of cutting the U.S. off from the international community, FIFA welcomes it in, legitimizing the horrific military actions that prevent our Americas from becoming a Zone of Peace. As communities across our Americas mourn the devastation caused by U.S. militarization, this country pastes a decadent spectacle atop its crimes.

By cozying up to empire, FIFA has exposed the World Cup as a sham of the international camaraderie it should represent. As long as the World Cup puts profits and power over human lives, it only upholds the continued blockade against peace in our Americas.
